We are taking the chapter program to the next level with the creation of the Dental Professional Learning Network (DPLN)!

→ Why the Change?

Because of the growth of the chapter program, local chapters have recognized the need to support their entire teams from educational and networking perspective. With a simple name change, study clubs may open their doors to include more dental professionals, ensuring you're not alone on your professional journey.

Their commitment remains centered around providing exceptional dental manager courses, fostering education, and facilitating valuable networking opportunities.

→ What's Changing for Me as an AADOM Member and a Study Club Member?

Nothing! The transition to DPLN is simply a name change for the previous AADOM Chapters.

You will still retain all the perks of your AADOM membership and of your local study club!
